

PROJECTS

- HOME PAGE OF NETFLIX :

I have created a home page of Netflix using HTML and CSS.

- WEATHER WEBSITE :

I build a website using HTML , CSS , JS that fetches weather data from an API and display the current weather conditions.

- PORTFOLIO :

I have created a portfolio website using HTML and CSS to showcase my skills and accomplishments.

- LANDING PAGE:

I've recently designed and built a captivating landing page using HTML and CSS. This project allowed me to showcase my expertise in web development and design. The landing page features sleek visuals and intuitive navigation, optimized for a seamless user experience.

- CALCULATOR:

I've just completed a project where I designed and developed a fully functional calculator using HTML, CSS, and JavaScript.
